Join us for an elegant dinner, discussion and viewing of the award-winning documentary **"Jens Jensen The Living Green"**. Director Carey Lundin, will discuss the making of the film and Jensen's conservation work. Then she will bring the story up to present day, demonstrating how Jensen's mission to bring nature to the city for people from all walks of life is so crucial to making today's cities livable.

This film is a collaborative work by Ms. Lundin and her late husband, writer Mark Frazel, to whom she would like to dedicate this event.
